To Whom It May Concern:

We would like to express our satisfaction with the quality job of painting our house done by College Works Painting. It looks like it is brand new!

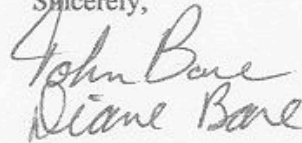

Ben Searer and his crew did an outstanding job. Ben conducted himself in a very professional manner each and every time that we interacted; from our initial meeting where he provided an estimate to the final walk-around. Every aspect of the operation was top-notch. Ben made a couple of trips to the house with paint samples to make sure that we were satisfied with the color. The prep work included power washing, caulking, and sanding. Our house has cedar siding which really is hard to paint. The crew ended up both spraying and brushing the paint on to make sure that they did a quality job. The crew was also very good about protecting our deck and landscaping from spills and overspray.

In addition to providing a quality finished product, Ben and his entire crew were always courteous. They kept us informed as the work progressed and left the work site in good shape when they were finished for the day.

We would highly recommend Ben Searer and College Works Painting to anyone looking to have their house painted.

Thanks, Ben!

Sincerely,
